EDUCATION

Sri Vasavi Engg Colleg
 Diploma In Computer Science; CGPA: 9.1 / 10.0
 Indian Eng Medium School
 SSC; CGPA: 9.0 / 10.0

Tadepalligudem, India
 August 2023 - june 2026
 Tanuku, India
 April 2023

SKILLS SUMMARY

- **Languages:** Java, JavaScript, HTML5, CSS3, Python, SQL
- **Libraries:** Pandas, Numpy, Matplotlib
- **Framework** MERN Stack
- **Tools:** Excel, PowerPoint, MySQL, Git (GitHub)
- **Platforms:** Visual Studio Code, IntelliJ IDEA, GitHub
- **Soft Skills:** Collaborative Team Contributor, Quick to master new tools in Tech Environments, Analytical Troubleshooter

WORK EXPERIENCE

FULL STACK DEVELOPER INTERN | February 2025- April 2025
 Unified Mentor | Remote

- Engineered a real-time **EV Charging Slot Booking System** using the **MEN stack** (MongoDB, Express.js, Node.js), enabling **10+** concurrent user bookings and reducing wait time by **40%** during internal testing.
- Created responsive UIs using **HTML, CSS, and Bootstrap**, achieving **100% mobile compatibility** and seamless API integration for booking and admin modules, tested across 3 screen sizes.
- Employed **GitHub and Postman** for code collaboration and **API testing**, enhancing development efficiency and reducing integration bugs by **40%**.

WEB DEVELOPMENT INTERN | January 2025- February 2025
 ELiteTech | Remote

- Successfully completed a **4-week internship** with outstanding remarks in **web development**.
- Completed a **self-driven** frontend project over **40+ hours**, utilizing Git for **20+ version-controlled** updates and implementing key UI/UX features from scratch.

PROJECTS

EV Recharge Bunk Info | [LINK](#)

- Engineered a full-stack EV charging slot platform using MongoDB, Express.js, and Node.js.
- Developed secure User login and admin dashboard, ensuring **99.9% uptime** with robust User authentication and data encryption.
- Enabled real-time slot availability and location-based station listings, resulting in a **30% improvement** in user satisfaction based on UX feedback.
- Ensured clean backend architecture and integrated **10+ RESTful APIs**, optimizing system maintainability and reducing future development time by **40%**

MockMate AI Agent By Lazr AI | [LINK](#)

- Refined and utilized **MockMate**, an AI-powered interview preparation agent by Lazr AI.
- Gained experience with AI tools and prompt engineering, refining the mock interview process through **20+ iterations**.
- Simulated real-time interview scenarios for **5+ distinct job roles**, improving response accuracy through targeted question patterns.

Portfolio | [LINK](#)

- Designed and deployed a responsive personal portfolio using HTML, CSS, and JavaScript, showcasing **5+ key projects**.
- Focused on clean UI/UX, smooth navigation, and ensured cross-device compatibility, optimizing the portfolio for **3+ devices** (mobile, tablet, and desktop).

CERTIFICATES

Programming in Python (Udemy) | [CERTIFICATE](#)

- Mastered fundamental Python syntax, proficiently utilizing **5+** control flow, loops, functions, and data structures.

AI Agent - MockMate (Lazr Studio) | [CERTIFICATE](#)

- Mastered building **5+ AI agents** on Lazr Studio, developing a mock interview tool to simulate **10+ real-time interview scenarios**
